

GREYSTOKE STAGES 2025

Welcome from the organising team.

Welcome to the West Cumbria Motorsport & Eden Valley Motor Clubs' joint running of the 2025 Greystoke Stages. We are offering approximately 40 miles of high-quality stages with centralised servicing within the forest complex. Those of you who have enjoyed our event previously will know that we are a friendly team offering a no-nonsense, value for money clubman event. We always do our best to minimise costs and with the support of M-Sport, our sponsors, and West Cumbria & Eden Valley MCs we are offering you the chance to participate in our forest event for just £495.

Local residents do not always appreciate the speed and noise of our sport. This area is becoming a rally and noise sensitive area so please ensure that you and your team show maximum consideration for others on the roads and in the villages around the forest to safeguard the future of the event.

We are grateful for being invited to be included in several northern based stage championships and so we are confident of plenty of demand – so don't delay on submitting your entry!

For the latest news and updates follow us on Facebook @GreystokeStagesRally or the event website www.greystokestages.co.uk. Good luck to all competitors.

ARTICLE 13 CONTROLS AND TIMING

All Special Stages will have a Bogey Time set at 70 mph and a Target Time set at approximately 30 mph (or less on short stages). Should any recorded time not be legible or not appear authentic the organisers may use any means at their disposal to establish a time.

The following titles describe the various types of Time Controls:

(a) Main Control

- (i) Main controls will be situated at the start and at the finish of the rally.
- (ii) Each competitor will be given a due starting time from MTC 1 and the difference between this starting time and their actual starting time will be counted towards exclusion for overall lateness.

(b) Special Stage Arrival Control –

On arrival at the SSA a competitor will receive a provisional start time only when they are ready to start the stage (helmets on, etc.). A competitor who is early may wait for his due time but must then proceed immediately to the start line.

(c) Special Stage Start Control

At the SSA a competitor will be given a start time for the Stage in hours, minutes and seconds. Once a competitor has clocked in at an SSA the Start Marshal will assume they are ready to start the stage and will issue a time as soon as the start line is clear, whether the competitor is ready to start or not. As each

section is timed separately the time taken from SSA to SSS is 'Dead Time' and delays are automatically allowed for.

(d) Special Stage Finish Control

At the SSF a competitor will receive their finish time in hours, minutes and seconds. This time in hours and minutes may be used to determine due time at next Stage Arrival. Any competitor who fails to stop at the 'STOP' Line must not, under pain of exclusion, reverse to the stop line, but must return on foot.

(e) Service In Time Controls

Service Out times will be given here, the times issued may be used for regrouping.

ARTICLE 14 START PROCEDURE
